About the Virtual Event

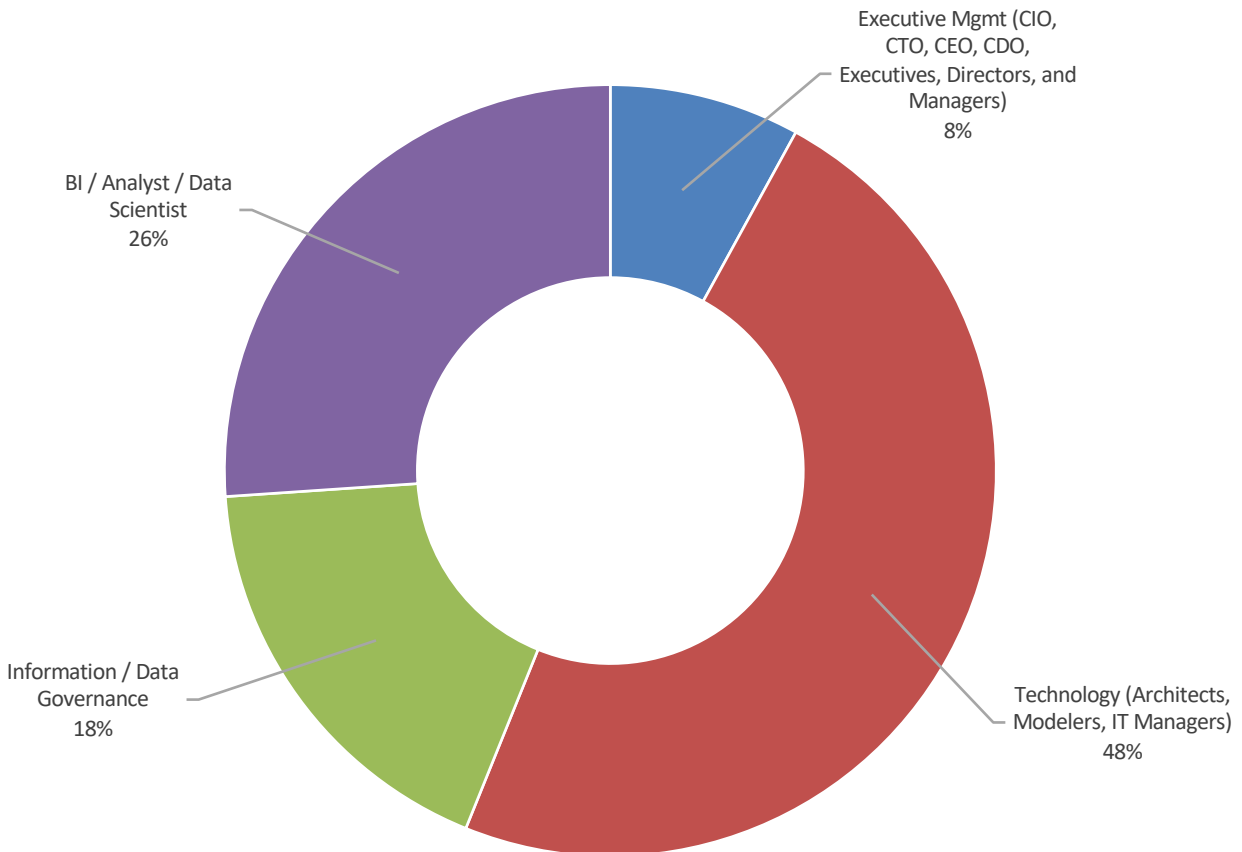

Data Architecture Online is one of DATAVERSITY's world-renowned education programs designed to teach Data Architects, modelers, and managers the full spectrum of tools and resources best used for building and managing a modern Data Architecture.

This event brings the reputation of our face-to-face conferences to a virtual platform, enabling not only great education from well-respected subject matter experts, but also offering professionals a way to learn from anywhere.

Demographics

Demographics are based on our engaged data audience.

- 98% qualify as decision makers
- 34% work for companies with more than 5,000 employees
- 73% are from North America
- 46% work in banking/financial, insurance, healthcare, or government

Data Architecture Online attracts decision makers from every avenue in Data Management. Here's a small sample from other Data Architecture events:
