

# Level up your data catalog to a self-defined data fabric

---

Enterprise Information Intelligence Graph

4/25/2023

@2023 Orion Governance - Confidential and Proprietary

**Orion** Governance

# What's it good for?

## **Data Governance, Trust, and Understanding**

- Understand how the data showed up on your report
- Visualize how sensitive assets move through the enterprise
- Augmented data quality and propagation of trust
- Automated asset-to-term and asset-to-policy mapping

## **Cloud Migration & Modernization**

- Full asset inventory
- Impact analysis
- Duplication detection

## **Cost Optimization**

- Near real-time impact analysis to determine scope of proposed changes
- Reduce redundancies to increase productivity

# Thank You
