

Collibra Data Catalog

Accelerate Data Discovery, Understanding and Access With Collibra Data Catalog

Anthony Sayegh
Senior Customer Engineer

A single data system of engagement requires a best-in-class, enterprise data catalog

Collibra Data Catalog

Discover, evaluate and access trusted data across the enterprise in minutes

Embedded data governance, data quality and privacy

Enable access to high quality, trustworthy and compliant data for the enterprise

Automated data curation and enrichment

Automatically profile, classify and add business context to data at scale

Native, automated business and technical lineage

View how data transforms and flows from system to system, source to report with native data lineage

Wide-ranging connectivity

Connect to commonly-used data sources, business applications and BI tools with connectors and APIs for easy metadata ingestion

Seamless collaboration and consumption

Automate processes and collaboration. Shop for data assets with complete meaning, lineage and relationships at your fingertips

Architected for secure, enterprise-wide adoption

Securely deploy across the enterprise with a flexible operating model, role-based permissioning and asset-level security controls

Live demo

Collibra is a Leader

2025 Magic Quadrant for Data and Analytics Governance Platforms

Strengths:

- **Overall viability:** Collibra demonstrates a strong 15% year-over-year (YoY) growth in revenue and 37% YoY growth in its customer base for its D&A governance products and services.
- **Market understanding:** Collibra presents a strong vision in providing end-to-end governance to support various governance use cases and requirements, including AI governance. It provides structure and governance functions with a dedicated focus across technical and nontechnical business users. It continues to grow its connections to other data resources and support for various data policies.
- **Business model:** Collibra has a strong partnership network with major technology providers and systems integrator partners such as AWS, Google, Infosys and Snowflake. It provides native integrations with more than 100 different data environments or applications, and has also recently entered into an exclusive partnership to support SAP ecosystems.

2025 Magic Quadrant

Collibra is the only vendor named a

Leader in The Forrester Wave™:
Enterprise Data Catalogs, Q3 2024

AND

Leader in The Forrester Wave™:
Data Governance Solutions, Q3 2023
