What Makes Our Attendees Your Most Qualified Customers?

We're Specialists, Not Generalists

We focus specifically on Enterprise Data, Data Strategy, and Enterprise Information Management (EIM) markets!

Our Program: Substance Attracts Quality

We accept only one in five speaking proposals, so our audience knows they'll learn from the best practitioners.

Substance and Quality Attract Quantity

Because of our value-intensive program, this event is known as the world's most authoritative Data Management conference, and draws more attendees each year no matter the location.

Our Audience Has Money to Spend

Attendees pay over \$1,500 on average to be at the conference each year. They are not walk-ins looking for a free t-shirt, or "exhibit-only" types. They understand the importance of researching what's best for their success strategy and aren't afraid to use their buying power to get results.

Our Attendees Represent Fortune 1000 Companies

Large organizations have budgets to spend on new initiatives and ongoing projects. Our audience comes mostly from Fortune 1000 companies and large government agencies.

All Industries Are Represented

Our attendees work in industries that spend a lot on IT, including banking, insurance, healthcare, energy, telecom, retail, manufacturing, and pharma. What brings them all together at our event is data.

Employer-Driven Attendance Justification

Employers don't like to spend money to send staff to events without a purpose. Our conference is famous for its real-world, practical focus. We offer dozens of case studies and how-to sessions: that's why our audience is primarily composed of professionals who are working with data challenges right now, many with immediate product and service needs.

They Are Not Only IT People, They're Business Managers and Executives

Each year, the percentage of attendees from the "business side" increases and now exceeds 35%. Business managers and executives join their colleagues to collaborate and learn about providing data-centric solutions from all sides to satisfy their strategic business needs.

Corporate Groups = Buying Power

Over 40% of our attendees are part of a group of two or more people from their organization. Wondering why a company would spend thousands of dollars to send groups of staff to a conference? We asked conference participants, and they told us they specifically attend to compare vendors and learn from peers who have already found solutions to their data challenges.

Meet Face to Face with Qualified Buyers

Exhibits Opening Reception with Hosted Bar

The opening reception is a can't-miss feature for every attendee. Directly following the day's afternoon keynote, food and a hosted bar is made available to all attendees. They enjoy browsing the booths, meeting sponsor reps like you, networking, and sharing ideas throughout the entire evening.

Dedicated Exhibit Hours

No sessions or other distractions compete for your customers' attention during opening night, and many attendee breaks are posted in the exhibits throughout the event. We work hard to ensure our attendees feel comfortable in the hall and that the room is packed with data people looking to you for the right solutions.

In Perspectives – Sponsor-Driven Sessions

We offer sponsors the opportunity to place a half-hour product presentation on the agenda. These sessions are attended by the audience you want to attract – they are often the decision makers within their organization.

We Make Your Job Easier

We know not all companies have logistical support or the time for fancy booth setups. With our *Convenience Package*, we ensure that the following items are ready for you in your booth:

- One draped table
- Two chairs
- Company name sign
- Basic electrical connection
- Lead retrieval scanner
