What is Unison?

melissa®

- Data Quality/Data Cleansing Solution
- Matching & De-Duplication
- Global Functionality

UNISON
by melissa

What is Unison?

Intuitive GUIs

Highly Scalable

2 Versions: SaaS & On-Premise

The screenshot shows the Unison web application interface. On the left is a blue sidebar navigation menu with the following items: Dashboard, Projects (with a dropdown arrow), Jobs (with an up arrow), Status, Schedule, Logs, and Settings (with a dropdown arrow). The main content area is titled 'Detailed Reports' and shows 'Test Project 1' with a 'Project Configuration' section containing 'View Graphs' and 'View Tables' buttons. Below this are two report sections: 'Address Service Reports' and 'Geo Service Reports'. The 'Geo Service Reports' section contains a table titled 'Geo Result Code Table' with the following data:

CODE	COUNT
GS03 - Geocoded to Community Level	16
GS05 - Geocoded to Rooftop Level	146
GS06 - Geocoded to Interpolated Rooftop Level	1

Benefits of Unison

melissa®

- Fast & Comprehensive Data Cleansing
- Easy-to-Understand Reports
- Centralized & Focused Data Quality
- ROI for Data Quality

Accessibility

- In the on-premise environment, users have complete control over the data files
- In the SaaS environment, all data files are stored & encrypted on Melissa-hosted data centers
- Multi-user environments where collaboration between projects is fast & easy

Q&A

What Unison questions
do you have for me?
