

DASERA

Operationalizing Data Governance & Security

Building a safer data-driven world

Perfect storm of data lifecycle complexity & external forces

DATA LIFECYCLE COMPLEXITY

Speed of provisioning
Data Infrastructure

Large volume of
Sensitive Data

Broad data usage by
Data Users

EXTERNAL FACTORS

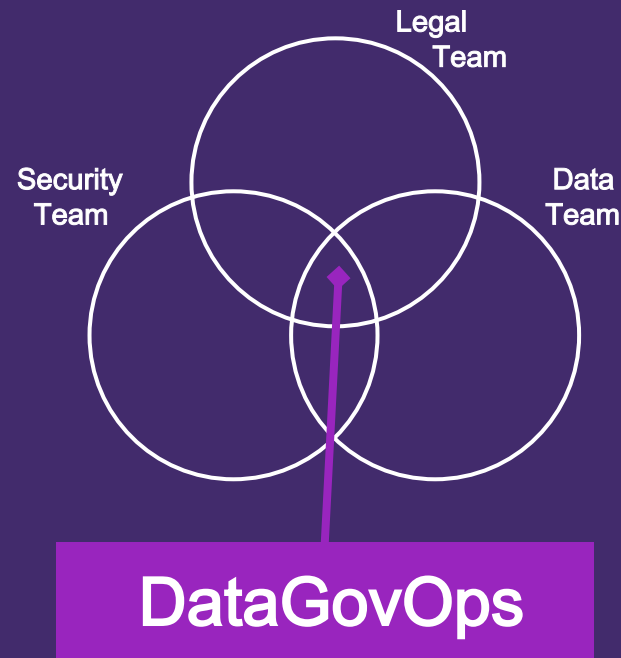

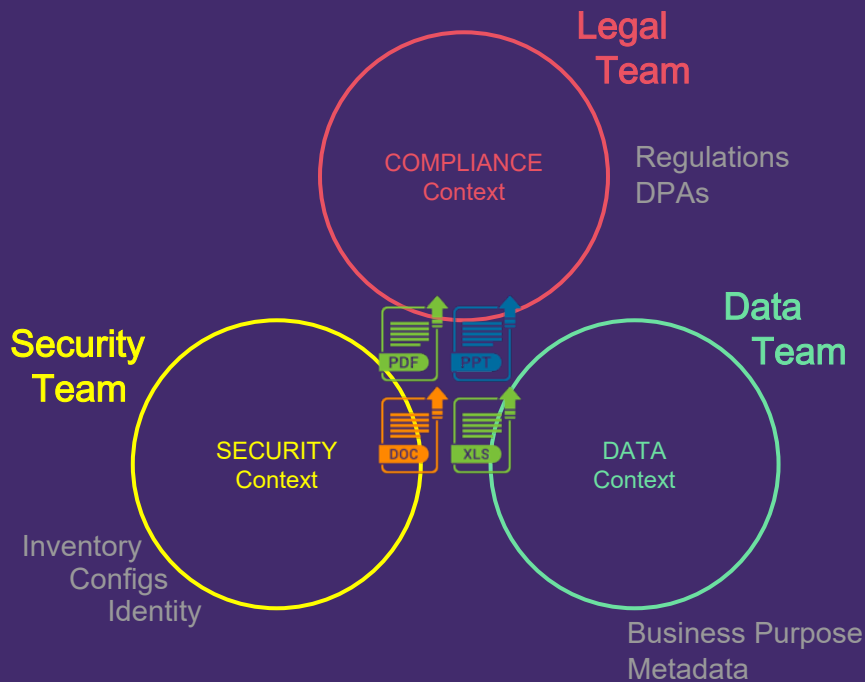

Regulations &
Compliance

YoY increase in
Data Breaches

Silos don't scale. Automation does.

DataGovOps Rx

CONTEXTUALIZATION

Normalized signal from all moving parts of the data environment deliver a **complete picture** and real-time insights.

DETECTION

Detect any risk or opportunity for improvement at the earliest stage possible with **minimal human intervention**

ORCHESTRATION

Ensure adoption and unify **teams** with automated workflows purpose built for every role involved in Data Governance.

Unlocking Context for Orchestration & Automation
