

Data Catalog for Compliance and Activation

Why Data Catalog?

Data Activation

Compliance

Data Activation

Find existing insights
(Metrics, reports, etc.)

Find relevant data to create
new insights

Prepare the data if it does
not exist

Create official data sets

Share, share, share

Analyze the ecosystem

Document the current state

Define the desired state

Define processes that
must be followed

Track the progress

A black and white photograph of a classical building facade with large columns and a pediment.

Platform Differentiators

Unified Platform with Complementary Modules

Active metadata usage – Extendibility – Embedded Governance

Self-Service Solution

AI & Machine Learning – Self-Service – Collaboration – UX/UI

Enterprise-Proven Usage

Scalability – Performance – High Availability – Auditing – Identity Management

Robust Data Processing Engine

Any Data / Any Domain – Integration – Performance – Scalability
