

Talend and Amazon Redshift

May 2020

TALEND INTRODUCTION

Cloud Data Management Platform: Integration, Quality & Governance

DATA LAKE | DATA WAREHOUSE | DATA PROCESSING | MIGRATIONS

Turn raw data into revenue

Innovate faster

Transform the customer experience

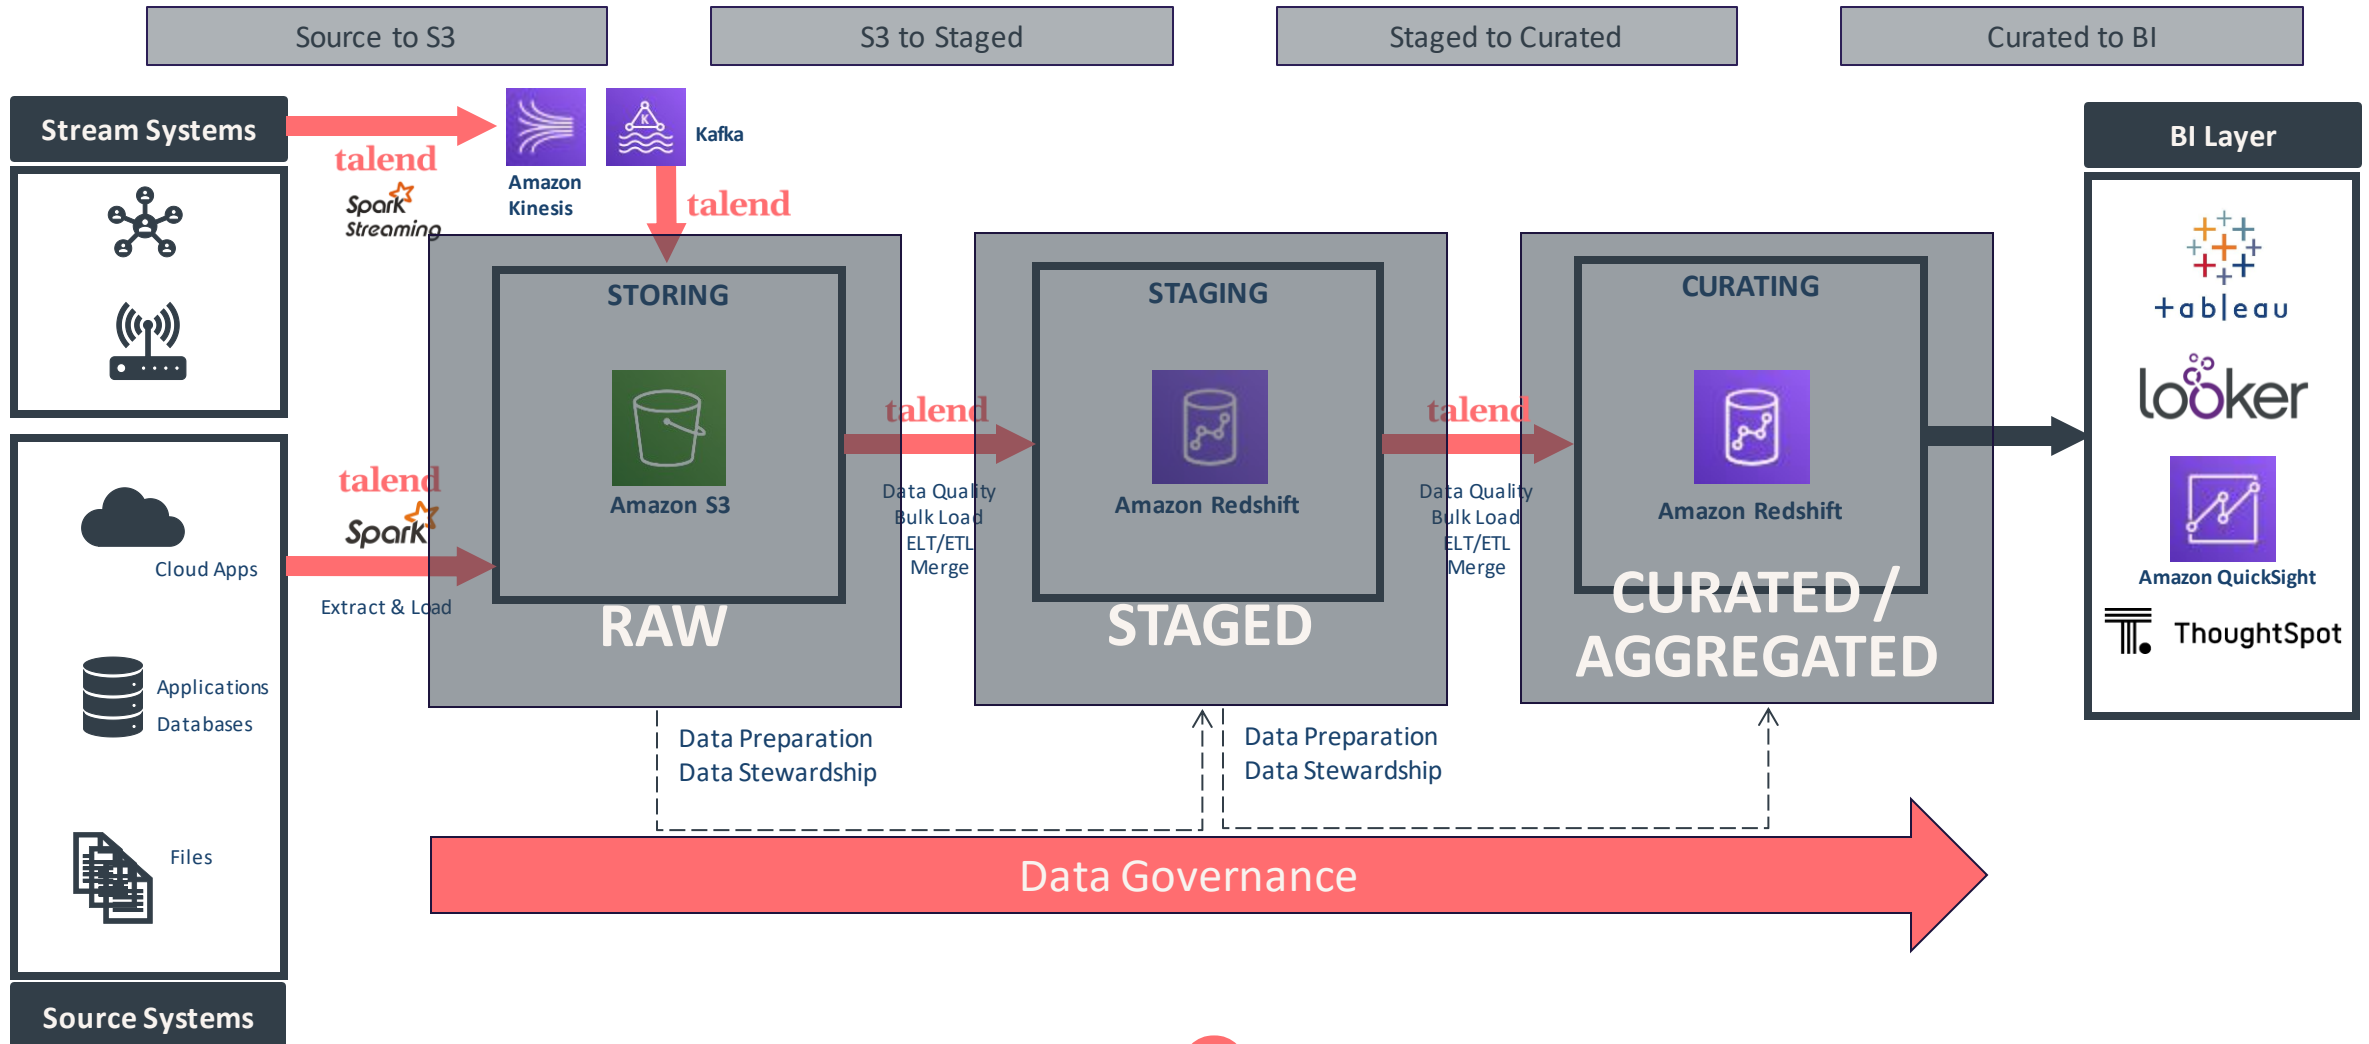

Dramatically reduce cost and risk

COMPLETE, COMPLIANT AND TIMELY DATA

Demo Technical Reference Architecture

Best Practice Architecture for Cloud Data Warehousing

ORDERAVERAGE	ORDERAVERAGE	<input type="checkbox"/>	FLOAT	<input checked="" type="checkbox"/>		20	0		

ELT By The Numbers

Cloud Data Warehouse Test with ELT vs standard loading

- 134m rows of data
- 26 Gb
- Jobs built in Talend Studio, run in Talend Cloud

- ELT: 23 seconds
- Standard loading: >20 minutes

Your actual results may differ, however, it is clear that ELT loads data within a cloud data warehouse **MUCH FASTER!**

Data Quality with Amazon Redshift with Data Preparation and Talend Studio

Demonstration

Demonstration

Summary

Do you have Talend Studio?

- Go use those components on current or past projects
- ELT, Bulk Loading, Cluster Management

Are you a Talend Cloud customer?

- You have licenses for Data Preparation.
Go connect to Amazon Redshift today.

Are you new to Talend?

- Go sign up for the Talend Cloud trial today.
